

P68-SS MANUAL NET CLIPPING MACHINE

PRODUCT DESCRIPTION

Venhart's Manual Net Clipping Machine P68-SS is a stainless steel net clipping machine that allows you to make and fill your own netting bags. The weighed or counted product drops from a hopper or belt into the chute. The machine applies a clip to the top of the filled bag and the bottom of the next. The positioning and angles of the chute are individually adjustable to suit various packing requirements.

The P68-SS comes with an easy foot pedal action. The chute holds approx 60 metres of VENET tubular netting. Two magazines each hold 740 Venhart P68 clips.

The P68-SS comes complete with stapling unit, stand, work table, single chute and a foot pedal.

PRODUCT FEATURES

- Commonly used for the packing of onions, citrus, and other fruits and vegetables.
- Adjustable table.
- Easy operation and high output.
- Use with Venhart continuous netting and Venhart P68 clips.
- Machine servicing and spare parts available.
